Capybara Coloring Book

36 original capybara coloring pages, free to print at home, at school and in the classroom. Every design in this book is also available as a single-page download, and many can be colored online in your browser.

About this collection

Meet the calmest animal on the internet: our free capybara coloring pages celebrate everyone's favorite chilled-out rodent with original printable designs. A capybara in sunglasses sipping a cool drink with a bird buddy, a sleepy one sharing a nap with a tiny turtle, and a blissful bather hugging an orange in a warm pond. Each page downloads instantly as a high-quality PDF for Letter and A4 paper, free, with no sign-up and no watermarks, and every design can also be colored online in your browser. Capybaras are wonderfully forgiving to color: warm browns, tans and oranges all look right, and the friendly scenes charm kids and adults equally. Print one whenever the day needs a little more calm.

Tips for coloring capybaras

Capybara fur sits happily anywhere between sandy tan and deep chocolate, so this is a great page for practicing gentle shading. Press lighter on the belly and darker along the back. The fun lives in the details: bright sunglasses, a striped drink cup, a green little turtle, an orange that pops against the water. Cool blues and greens in the background make the warm fur glow.

Why kids (and adults) love the capybara pages

Capybaras are famous for being friends with everyone, birds ride on their backs, turtles nap beside them, and these scenes lean into exactly that gentle humor. They make sweet calm-down pages for the end of the day, and more than a few grown-ups have told us the spa capybara is their office desk mascot.

Frequently asked questions

What colors should a capybara be?

Anything from light sand to reddish brown works. Or break the rules entirely; the capybara will not mind.

Are these pages free to print?

Yes. Free for personal, classroom, library and therapy use, with the details in our licensing policy.

Can I color the capybaras online?

Of course. Every design has a "Color online" button for coloring right in the browser.

How to print

Every page is sized for US Letter and prints on A4 without cropping if you set your printer to "fit to page". Print single-sided so colors do not show through, and use cardstock if you plan to use markers. There are no watermarks and no sign-up, on any page.

Terms of use

Free for personal, classroom and library use. Print as many copies as you need. Please do not re-sell these pages or re-host the file: link to the collection page instead, so the book stays up to date.
