What is on these fall coloring pages?

60 original autumn drawings: a fox in the falling leaves, a squirrel with its acorn, a scarecrow, a hedgehog, an apple harvest, an owl at night, a rainy day with an umbrella, big autumn leaves, one very easy page for toddlers and one intricate arrangement. All free vector PDFs for Letter and A4.

Tips for coloring autumn pages

Fall is the one season with an official palette: orange, red, brown, gold and a little deep green. The nicest trick is to color the leaves on a single page in different warm tones instead of one flat color, exactly like a real tree in October. Leave a few leaves white and they read as sunlight. Markers love the big leaf shapes, but print on slightly heavier paper so they do not bleed through; our how-to-print guide explains the paper choices.

From coloring page to autumn craft

Colored leaves make beautiful garlands: cut them out, punch a hole in each and hang them on a string across a window or classroom wall. The scarecrow and the owl make sweet seasonal door signs. Everything here is free for home, classroom and library use, as covered in our licensing policy. When the pumpkins on these pages put you in the mood for late October, our Halloween coloring pages pick up exactly where fall leaves off. And on days without a printer, you can color these fall pages online instead.

How to print

Every page is sized for US Letter and prints on A4 without cropping if you set your printer to "fit to page". Print single-sided so colors do not show through, and use cardstock if you plan to use markers. There are no watermarks and no sign-up, on any page.

Terms of use

Free for personal, classroom and library use. Print as many copies as you need. Please do not re-sell these pages or re-host the file: link to the collection page instead, so the book stays up to date.
