Where can you print free Sonic coloring pages?

Right here. This page has 65 free Sonic coloring pages you can print in about a minute: no sign-up, no email, no watermark. Each one is an original blue-hedgehog drawing made in our own studio, sized for both US Letter and A4, and every design can also be colored online in your browser.

What colors is the blue hedgehog?

The classic look is bright blue quills, a peach muzzle and arms, green eyes, white gloves, and red sneakers with a white strap, with golden rings scattered around him. The colored example at the top of this page uses exactly that palette, so you can copy it straight off the screen. But these are your pages. Purple quills with orange shoes work just as well, and a whole row of differently colored hedgehogs looks great taped to a wall.

Tips for coloring speed

The speed lines, swirls and motion streaks are the secret weapon on these pages. Leave them white and the drawing looks calm; color them light blue or yellow and the hedgehog suddenly looks like he is moving. Keep the biggest area (the quills) one flat, even blue so the small details pop against it: the shoes, the gloves and the rings. Gold rings love yellow and orange together, with a spot left uncolored for shine. If you color with markers, print on thicker paper (cardstock) so nothing bleeds through; crayons and pencils are happy on plain printer paper.

Which page should you print first?

For toddlers, start with the easy hedgehog: extra-thick lines, big open areas, nothing fiddly. Kids from about four to eight head straight for the action scenes, the big loop, the spring bounce and the skateboard ramp. Older kids and grown-ups usually pick the patterned quills page, which colors like a mandala and can take a whole evening. Running a birthday party? Print a stack of the finish line page and hand out gold and blue pencils.

Frequently asked questions

Are these Sonic coloring pages free for schools?

Yes. Everything here is free for personal use and for classrooms, libraries and therapy practices. The details are in our licensing policy.

What paper size do the PDFs fit?

Every PDF is built for both US Letter and A4. Choose "fit to page" in your print dialog and you are set. There are more tips in our how-to-print guide.

Can we color Sonic online without a printer?

Yes. Every design has a "Color online" button that opens it in our browser coloring studio. Paint with a mouse or a finger, undo anything you like, and download the finished picture as a PDF or a PNG.

Who draws these pages?

We do. Every hedgehog here is drawn as original fan art in our own line-art style, never traced or copied. A plumber in a red cap races him for the title over on our Mario coloring pages, which add kart racing, warp pipes and the whole Mushroom Kingdom. A spiky haired martial artist trains just as hard over on our Goku coloring pages, which add energy beams, a flying cloud and the seven star orbs. If you like this collection, the rest of our cartoon coloring pages are drawn the same way.

How to print

Every page is sized for US Letter and prints on A4 without cropping if you set your printer to "fit to page". Print single-sided so colors do not show through, and use cardstock if you plan to use markers. There are no watermarks and no sign-up, on any page.

Terms of use

Free for personal, classroom and library use. Print as many copies as you need. Please do not re-sell these pages or re-host the file: link to the collection page instead, so the book stays up to date.
